| | CONTENT | |
|----|---|-----|
| 1 | Stepan Budz, Ihor Budz | 5 |
| | Assessment of the operational resource of the drum of the boiler unit of the TPP power unit damaged during its | |
| | operation | |
| 2 | Oleg Limarchenko, Oleksandr Klimenkov, Katerina Semenovich | 11 |
| _ | Character of force interaction of an ideal liquid with a free surface in the ellipsoidal reservoir of revolution | |
| 3 | Oleksandr Konstantinov | 20 |
| | Generalization of the Faraday problem for the mechanical system «reservoir – liquid» in the presence of a | |
| | vertical periodic (inharmonic) disturbance | 20 |
| 4 | Roman Musii, Uliana Zhydyk, Bohdan Bandyrskyi | 30 |
| | Determination and analysis of the temperature field in a three-layer isotropic plate with a given initial | |
| 5 | temperature distributio | 41 |
| 5 | Yaroslav Pyanylo, Anatoly Lopatyev, Hanna Lyantse, Andriy Vlasov, Yuriy Khorkaviy | 41 |
| - | One of the approaches to modeling the process of blood distribution in soft tissues of living organisms | 49 |
| 6 | Adrian Nakonechnyy, Ihor Berezhnyi Wavelet analysis of remote photoplethysmographic signals for heart rate and variability estimation | 49 |
| 7 | Orest Denysiuk, Rostyslav Nakonechnyi | 58 |
| , | Analysis and improvement of methods and means for eliminating distortions in image and video signals | 50 |
| 8 | Roman Dyriv, Volodymyr Samotyi | 73 |
| Ü | Hysteresis in ferromagnetic materials and its impact on electromagnetic devices | 10 |
| 9 | KhrystynaVysotska, Vitalii Pavliuk, Adrian Nakonechnyi, Mykhailo Veselovskyi | 81 |
| | Diagnostics and predictive maintenance of industrial electric motors | 01 |
| 10 | Bogdan Drobenko, Tetyana Bardyn | 99 |
| | Strengthand operational reliability of bimetallic thermoconverters | |
| 11 | Ihor Buchma | 113 |
| | Models of the interaction of the electromagnetic field of mobile systems of low-frequency inductive electrical | |
| | exploration and conducting ferromagnetic bodies | |
| 12 | Yaroslav Pyanylo, Valentina Sobko, Halyna Pyanylo, AdrianTorskyi | 128 |
| | Comparative analysis of the approximation of derivatives of Caputo and Riemann-Liouville fractional orders in | |
| | the bases of biorthogonal polynomials | |
| 13 | Mykhailo Fys, IhorDemkiv, Yaroslav Pelekh | 135 |
| | Representation of cubic irrationality using the sum of two periodic branched chain fractions | |
| 14 | Mykhailo Yadzhak, Maria Tyutyunnyk | 141 |
| | Parallel algorithms for interactive evaluation of complex hierarchical network systems | |
| 15 | Oleh Kozak, Volodymyr Samotyi, Andriy Pavelchak | 147 |
| | Evolutionary method of functions approximation by real polynomials | |
| 16 | Denys Khomiuk, Volodymyr Samotyi | 156 |
| | Adaptation of Fourier transform for reproducing non-periodic signals | |
